

## Social Justice

never trust  
the ikons of assembly-line religion  
never bow  
before images of clay & wood

unchain rituals of rosaries  
& incense of death

debunk the myths  
or made for *tv* gods

demand a sacrilegious god  
jolt the *Sinai*s of the world  
& rain bolts of fire across centuries of speculation

exact a razor-truth  
cut the bloodies gauze of endless tyrannies

expect the sick healed  
hunger *filled*  
lost *found*  
persecuted *justified*  
homeless *housed*

proclaim the captive *free*  
sight *restored*  
the dead *raised like Lazarus from the tomb*  
& the temple of the world *cleansed one last time*
